Portfolio

SUMMARY

Junior Backend Developer with hands-on experience building web applications and RESTful APIs using C#, ASP.NET Core, Entity Framework Core, LINQ, and SQL Server. Experienced in authentication and authorization, role-based access control, database-driven applications, asynchronous programming, and background jobs. Familiar with Clean Architecture, SOLID principles, Dependency Injection, Git, GitHub, Postman, and Swagger.

PROFESSIONAL EXPERIENCE

DEPI, *Full-Stack Developer Trainee* 10/2024 – 06/2025 | Remote

Internship Experience

- Developed backend features using C#, ASP.NET Core Web API, and ASP.NET Core MVC.
- Implemented database operations using Entity Framework Core, LINQ, and SQL Server.
- Designed and implemented RESTful API endpoints and CRUD operations for application functionality.

PROJECTS

Library Hub | ASP.NET Core MVC

- Developed a library management application with role-based access control using ASP.NET Core Identity
- Added advanced search, filtering, sorting, and pagination for book management.
- Integrated Hangfire for background jobs and notifications, with an admin dashboard for statistics.
- Used Entity Framework Core, LINQ, and SQL Server for data access.

Art Gallery Ticketing System | ASP.NET APIs

- Developed RESTful APIs for managing art exhibitions, artwork listings, and ticket purchases.
- Implemented JWT authentication and role-based authorization for Admin, Artist, and Client users.
- Managed data persistence using Entity Framework Core and SQL Server, supporting exhibition and ticketing operations.

Learning Management System | ASP.NET MVC

- Developed an LMS supporting online course management, student enrollment, and course purchases.
- Implemented role-based access control for Admin, Instructor, and Student roles using ASP.NET Core Identity.
- Integrated Stripe to process course payments.
- Leveraged Entity Framework Core, LINQ, and SQL Server for database operations.

SKILLS

- **Languages and frameworks**: C#, ASP.NET Core Web API/MVC, EF Core, LINQ
- **Databases**: SQL Server, T-SQL
- **Security**: ASP.NET Core Identity, JWT, role-based authorization
- **Architecture and practices**: OOP, SOLID, clean architecture, dependency injection, repository pattern, RESTful design

- **Testing**: xUnit, Moq
- **DevOps**: Git, GitHub Actions, Docker
- **Tools**: Postman, Swagger, Visual Studio, Hangfire, AutoMapper

CERTIFICATIONS

SQL Certificate

Git and GitHub Fundamentals

Personal Branding Workshop

English DEPI Certificate

EDUCATION

Helwan University – Bachelor's Degree in Computer Science 09/2021 – 06/2025
Faculty of Computers and Information
