SUMMARY

Junior .NET Developer passionate about building high-quality applications and continuously learning new technologies. Proficient in C#, ASP.NET Core APIs, and ASP.NET Core MVC, with a strong focus on developing scalable and efficient solutions. Eager to contribute to dynamic teams and grow in the software development field.

WORK EXPERIENCE

Internship Experience

October 2024 – June 2025

DEPI – Full-Stack Developer Trainee

- Developed web applications using ASP.NET MVC and ASP.NET Web APIs.
- Worked with C# and Entity Framework (EF) to manage databases.
- Used SQL to design and optimize database queries and retrieval using LINQ.

PROJECTS

Learning Management System (LMS)

- A web-based platform for managing online courses and student enrollments.
- The system includes role-based access for admins, instructors, and students, along with secure Stripe payment integration for purchasing courses.
- Technologies Used: ASP.NET Core MVC, Entity Framework, SQL Server, LINQ
- GITHUB

Art Gallery Ticketing System

- A backend API for an online platform that manages art exhibitions and allows users to book and purchase tickets.
- The system supports secure user registration, ticket booking, and payment handling through a clean and scalable API
- Technologies Used: ASP.NET Core Web API, Entity Framework Core, SQL Server, JWT Authentication
- GITHUB

Examination System

- A web-based system for managing online exams, student registrations, and automated result calculations.
- Ensures secure exam flow, real-time grading, and maintains data integrity using SQL Server.
- Technologies Used: SQL Server, Stored Procedures, Functions, Triggers, Views
- GITHUB

TECHNICAL SKILLS

- - Programming Languages: C#, T-SQL, C, C++
- - Web Frameworks: ASP.NET Core MVC, ASP.NET Core Web API
- - Database: SQL Server, Entity Framework Core (Code First & DB First), LINQ, Stored Procedures, Views, Functions, Triggers
- - Architecture & Principles: OOP, SOLID Principles, Basic Design Patterns, Clean Architecture
- - Tools: Visual Studio, SQL Server Management Studio (SSMS), Git, GitHub, Postman, Swagger
- - APIs: RESTful APIs, Authentication with JWT, Role-based Authorization
- - Others: AutoMapper, Dependency Injection, Asynchronous Programming (async/await), Version Control with Git

Certifications

- - Git and GitHub Fundamentals
  Almadrasa Platform – Instructor: Ahmed Fathy — View Certificate
- - Personal Branding Workshop
  Yanfaa Training Center – Instructor: Eslam Hussien — View Certificate
- -SQL (Intermediate) Certificate
  HackerRank – Issued July 2025 — View Certificate

EDUCATION

Helwan University – Bachelor's Degree in Computer Science **October 2021 – June 2025**

Faculty of Computer and Information

- Focused on software development and backend technologies.
